We are looking for highly motivated Consultant Analysts with exceptional analytical and problem-solving skills, to join our growing consulting business. You will work as part of project teams to deliver work that supports our clients to create strategy, design the right services, deliver change, and use data to drive better decision making. You will also be involved in helping to grow our firm, contributing to business development activity with other team members.

Key tasks include:

Delivering interesting and challenging work as part of project teams

- Work as part of a client-facing team contributing to client deliverables
- Analyse and resolve client problems and issues

Winning work

- Undertake market & sector research and write collateral
- Contribute to bids and proposals

Developing AAB Consulting

- Build your network of business contacts
- Live our values - www.aabconsulting.uk/who-we-are/our-values

Job and career satisfaction

- Develop your skills and experience
- Learn a suite of consulting tools, techniques, and methodologies that can be used on projects

Minimum requirements:

- 2:1 degree or equivalent work experience. We are keen to hear from applicants who may not have a University degree but who have relevant experience and an interest in consulting
- Good at problem solving and analysis
- Comfortable with the interpretation and visualisation of data
- Good interpersonal skills – friendly and engaging
- Able to write and present well
- Interested in how organisations operate and how they change
- Flexibility to work on a range of projects with different teams, different clients and in different locations

The list of tasks is not intended to be exhaustive. The requirement to undertake additional duties which might reasonably be expected also form part of the function of the role.

Please send your CV and covering letter to audrey.stewart@aabconsulting.uk before Friday 21st May 2021. Please ensure you have included the reference AABCL-0421-001 in your covering letter.
